Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 24, 26, 27 and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kashyap et al. (4,923,278).

Kashyap et al discloses, **for claim 24**, at least one optical wave guide, at least one strength member (metal coating, see col. 1, lines 38-43), the at least one strength member being a steel (another metal could be steel, see col. 1, lines 38-43) that is annealed (see col. 1, lines 38-43) for relieving stress induced in the manufacturing process; and a Jacket, **for claim 26**, the jacket being formed from a polymeric material having fillers for reducing post-extrusion shrinkage (see col. 2, 42-45, 58-60), **for claim 27**, the at least one strength member having a coating (see figure 1), **for claim 30**, the cable being a dry design.

However, Kashyap et al does not specifically disclose:

- a) The strength member is made of steel. Kashyap et al discloses the coating, which may be **another metal (steel)**. Therefore, it would have been obvious to one of ordinary skill in the art, at the time of the invention for Kashyap et al to have the coating (strength member) to be steel to have stronger strength member.

Allowable Subject Matter

3. Claims 1-23 are allowed.
4. Claims 25, 28 and 29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

REASONS FOR ALLOWANCE

5. The following is an examiner's statement of reasons for allowance:

See previous office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

6. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Contact

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Javaid Nasri whose telephone number is 571 272 2095. The examiner can normally be reached on Monday to Friday.
